And also you can add a note as Test to distinguish the test orders.

You can also simulate a real customer placing an order in your store to create a test order.

Go to Nihao Dropshipping dashboard and find the test order in the **Your Store Orders** section. The order with fully connected products will be shown on the **Available Orders** section. Otherwise, it will be shown on the **Store Orders** section. You need to connect the products with Nihao products first.

Click **Add to Cart** and go to the **Cart** section to pay the order if you want.
